INDEX TO VOLUME XLI

(NOTE.—In this index the titles of principal papers and headings of departments, as *Reviews,* are in italics.)

Abrams, F. W., petroleum storage costs (review), 92

Abstracts—

Artificial recharge of artesian limestone at Orlando, Florida (Unklesbay and Cooper), 293

Artificial recharge of glacial sand and gravel with filtered river water at Louisville, Kentucky (Guyton), 644

Artificial recharge of ground water on Long Island, New York (Brashears), 503

Artificial recharge of productive groundwater aquifers in New Jersey, 726

Clarksburg kaolin area of Carroll County, Tennessee (Whitlatch and Gildersleeve), 841

Control of impounding structures on ore deposition (Mackay), 13

Correction factor for specific gravity and volume differences in fragment analysis, 749

Cotangent ruler for simplifying the graphic solution of problems in structural geology (White), 539

Ferruginous bauxite deposits in northwestern Oregon (Libbey, Lowry, and Mason), 246

Foundation displacements along the Malheur River siphon as effected by swelling shales (Mielenz and Okeson), 266

Foundation of Hales Bar Dam (Frink), 576

General principles of artificial groundwater recharge (Meinzer), 191

Genesis of ground waters in the coastal Plain of Virginia (Cederstrom), 218

Humic acids and true organic acids as solvents of minerals (Fetzer), 47

Hydrothermal alteration in the Castle Dome copper deposit, Arizona (Peterson, Gilbert, and Quick), 820

Landslides and their relation to engineering in the Dunedin district, New Zealand (Benson), 328

Lead-silver mineralization in the Clark Fork district, Bonner County, Idaho (Anderson), 105

Luminescent phenomena as aides in the localization of minerals in polished sections (Yagoda), 813

Microscopic characters of vein carbonates (Grout), 475

Mineral resources of China (Juan), 399

Abstracts—Continued

Movement of mineralizing solutions in the Picher field, Oklahoma-Kansas (Stoiber), 800

On the nature of replacement (Douglas, Goodman, and Milligan), 546

Notes on the cutting and polishing of thin sections (Meyer), 166

Notes on the ilmenite deposits at Piney River, Virginia (Davidson, Grout, and Schwartz), 738

Portable differential thermal analysis unit for bauxite exploration (Hendricks, Goldich, and Nelson), 64

Preliminary chemical correlation of chromite with the containing rocks (Thayer), 202

Punched card identification of ore minerals (Fairbanks), 761

Quartz crystal deposits in the State of Goiaz, Brazil (Campbell), 773

Quartz crystal deposits of western Arkansas (Engel), 598

Recent contributions to the geology of the Michigan copper district (Broderick, Hohl, and Eidemiller), 675

Relations of bauxite and kaolin in the Arkansas bauxite deposits (Goldman and Tracey), 567

Rôle of sulphur bacteria in the formation of the so-called sedimentary copper ores and pyritic ore bodies (Schouten), 517

Sedimentary and volcanic processes in the formation of high alumina clay (Allen), 124

Stages and epochs of mineralization in the San Juan Mountains, Colorado, as shown at the Dunmore mine, Ouray County, Colorado (Kelley and Silver), 139

Structural control of ore bodies in the Jefferson City area, Tennessee (Brokaw and Jones), 160

Synthetic replacements as an aid to ore-genetic studies (Schouten), 659

Tin and tungsten deposits of French Morocco (Heck), 383

Transport and deposition of the nonsulphide vein minerals. I. Introduction (Smith), 57

White Horse alunite deposit, Marysvale, Utah (Willard and Proctor), 619

Acids and true organic acids as solvents of minerals, Humic (Fetzer), 47
Acmite, 496
Adams, S. F., on quartz, 476, 483, 499
Adularia, 612, 832
Aikinite, 147
Alabama, aluminous clays, 841
Alaska, chromite, Kenai Peninsula, 215
Albite, synthesis, 59
Albitization, 44
Alexander, L. T., *et al.*, on soils, 574
Allen, E. T., Crenshaw, J. L., and Merwin, H. E., on sulphides, 58
Allen, V. T., *Sedimentary and volcanic processes in the formation of high alumina clay*, 124–138
  on Ione formation, Calif., 125
  and Fahey, J. J., on mansfieldite, 137
  and Nichols, R. L., on clays, 128, 130
Allen's reaction, 61
Alpha-matildite, 767
Alteration, Clark Fork district, Idaho, 107
  latite, Marysvale, Utah, 623
  Michigan copper district, 688
  Piney River ilmenite area, Va., 743
  quartz deposits, Ark., 613
  synthesis experiments, 59
  tungsten deposits, China, 437
  volcanic rocks to clay, 126
  zoning, 44
Alteration in the Castle Dome copper deposit, Arizona, Hydrothermal (Peterson, Gilbert, and Quick), 820
Alumina clay, Sedimentary and volcanic processes in the formation of high (Allen), 124
Alunite, China, 405, 461
Alunite deposit, Marysville, Utah, White Horse (Willard and Proctor), 619
Alunitization, 627
Amblygonite, 62
Amethyst, Missouri (review), 90
Analyses (see Chemical Analyses)
Analysis, A correction factor for specific gravity and volume differences in fragment (Chayes), 749
Analysis unit for bauxite exploration, A portable differential thermal (Hendricks, Goldich, and Nelson), 64
Anderson, A. L., *Lead-silver mineralization in the Clark Fork district, Bonner County, Idaho*, 105–123
  on mineral identification, 554
Anderson, R. J., on bournonite, 110
Andrews, D. A., and Schaller, W. T., on aragonite, 482
Anglesite, 361, 663, 667
Anhydrite, 60, 62
Ankerite, 60
Anthracite, China, 410
Antimony, 42
  China, 403, 444
  Clark Fork lead-silver ores, Idaho, 112
  U. S., supplies in wartime, 313
Antithetic faults, 79, 85
Antozonite, 818
Apatite, 60, 62, 743, 831
  China, 467
Applin, P. L., and Applin, E. R. on limestone, 296
Aquifers in New Jersey, Artificial recharge of productive ground-water (Barksdale and Debuchananne), 726
Aragonite, 479
Arizona, Hydrothermal alteration in the Castle Dome copper deposit (Peterson, Gilbert, and Quick), 820
  ground water, Safford Valley, 193
Arkansas, The quartz crystal deposits of western (Engel), 598
  ground water, Grand Prairie district, 198
Arkansas bauxite deposits, Relations of bauxite and kaolin in the (Goldman and Tracey), 567
Armstrong, H. E., on osmosis, 21
Arsenic, 42
  China, 404, 450
Arsenides, Michigan copper district, 715
  replacement, 661
Arsenopyrite, 110, 120, 450, 497, 669
Artesian limestone at Orlando, Florida, Artificial recharge of (Unklesbay and Cooper), 293
Artesian water, Coastal Plain, Va., 221
Asbestos, China, 466
  U. S., supplies in wartime, 314
Asphalt, China, 421
Atom shunting and replacement, 547
Atomic power and uranium (review), 91
Autoluminographs, 816
Autunite, 814
Axlerod, J. M., on plagioclase, 829

Babcock, H. M., and Cushing, E. M., on ground water, 195
Bacteria, hydrobacteriology (review), 558
Bacteria in the formation of the so-called sedimentary copper ores and pyritic ore bodies, The rôle of sulphur (Schouten), 517
Baddelyite, 62
Bain, G. W., on carbonates, 493
  on ore deposition, 36
  on quartz, 607
Bandy, M. C., on crystals, 611
Barite, 112, 817
  China, 461
  synthesis, 59
Barksdale, H. C., and Debuchananne, G. D., *Artificial recharge of productive ground-water aquifers in New Jersey*, 726–737
  et al., on ground water, 195
Barriers of ore-forming solutions, 17, 24
Barrow, L. T., petroleum, U. S. lands (review), 92
Baskerville, C., and Kunz, G. F., on autoluminographs, 816

Bastin, E. S., on calcite, 495
on carbonate, 486, 491, 497, 498
on colloform structures, 491
on sulphate reduction, 235
et al., on micro-metasomatism, 349
Bateman, A. M., *Wartime dependence on foreign minerals*, 308–327; discussion, 851
on minerals, 762
on replacement, 547
Bauer, E., on orthoclase, 59
Bauxite, China, 462
Bauxite and kaolin in the Arkansas bauxite deposits, Relations of (Goldman and Tracey), 567
Bauxite deposits in northwestern Oregon, Ferruginous (Libbey, Lowry, and Mason), 246
Bauxite exploration, A portable differential thermal analysis unit for (Hendricks, Goldich, and Nelson), 64
Bavendamm, W., on bacteria, 518
Becker, G. F., on sulphides, 58
Becquerel, A. C., on calcite, 59
Behre, C. H., Jr., reports by, 97, 183
Beidellite, 70, 829
Belgium, museum restoration plea (communication), 175
Bell, G. L., on bauxite, 258
Bell, J. F., on lucite, 166
Benjaminite, 766
Benson, W. N., *Landslides and their relation to engineering in the Dunedin district, New Zealand*, 328–347
on dolerite, 345
on landslides, 328
on lava flows, 328
Berg, G. E. W., on veins, 477
Berg, V. G., on breccias, 477
Berry, E. W., on Ackerman formation, 844
on Porters Creek formation, 846
Beryl, 60, 62
China, 467
fragment analysis, 752
U. S., supplies in wartime, 313
Bevan, A., memorial by, 186
Beyschlag, F., Vogt, J. H. L., and Krusch, P., on calcite, 501
Bibliography (review), 670
China, mineral resources, 471
ground water, Coastal Plain, Va., 244
Louisville area, Ky., 657
ground-water recharge, 200
Hales Bar Dam foundation, 597
ore minerals, identification, 767
petroleum (review), 285
quartz deposits, Goiaz, Brazil, 799
vein minerals, non-sulphide minerals, 63
